Concerning the Petition to revive unavoidably abandoned application in accordance with 37 CFR 1.137(a)

We address to You in connection with long-termed absence of written (postal) reply on our request to revive the patent application No. 10/518,218.

On October 16, 2009 we have filed in USPTO „*The Request to escape the abandonment of the patent application No. 10/518,218*”, which comprised:

- o the prove of unavoidability of failure to timely response on the Notice of Non-compliant Amendment from September 9, 2009,
- o the corrected Amendments.

USPTO has registered the receiving of this letter by October 19, 2009.

On March 9, 2010 we have filed in USPTO the letter with the request to consider the *Request* from October 16, 2009 as the „*Petition to revive unavoidably abandoned application in accordance with 37 CFR 1.137(a)*”. The appropriate fee was paid on March 23, 2010. USPTO has registered the receiving of this letter by March 9, 2010.

No any reply on these two letters we did not received till now.

On July 15, 2010 through the PAIR system on the USPTO web-site, we have revealed the publication of the Notice of Abandonment dated by June 10, 2010. By post this document we also have not received.

From above mentioned is clear, tht the patent application was abandoned unreasonably. In this connection we ask to revive it.

Faithfully Yours,
Dr. Sergey Matasov
